You will learn how to:

- ✓ Brand the reports your sales agents create for their buyers and sellers with your company's name and logo
- ✓ Gain a greater understanding of your company's performance versus the market
- ✓ Display a consumer-friendly AVM on your website
- ✓ Promote ancillary service companies to your agents

One of my favorite features of RPR is the ability to brand our broker logo to the site which allows my agents to see what we, as a company, are doing for our agents.
